ABANDONMENT AND
FAIR WARNING
NOTIFICATION
(ENGINE OR ENGINE PARTS)

It is the policy of Phoenix Engine Rebuilders to provide a courtesy Abandonment Notification regarding any engine or engine part(s) left at Phoenix Engine Rebuilders. Our policy (to which each customer agrees by signing a Repair Order) is that when work is complete but the engine or parts are not paid/picked up within THREE (3) days, STORAGE FEES of $5.00 to $10.00 daily will begin to incur. Without prior arrangements, the engine and/or part(s) may be considered abandoned and SOLD to help defray our costs after TEN (10) days of non-payment.

> The progress of all work must be monitored by the customer. If any customer cannot be contacted for any period exceeding 10 calendar days, or if any payment agreement is in default over ten (10) days, the engine and/or parts will be considered abandoned.

Notice to all Customers: Payment in full is expected at time of completion of work. If we have not received full payment on your Repair Order (including any applicable storage fees) and/or if your progress payment is in default for TEN (10) days, be advised we may make arrangements to dispose of the property at auction or other means to help defray our costs.

Progress payments (aka agreement payments) are defined as substantial monthly payments. Two smaller biweekly payments may be substituted, equal to one larger monthly payment.

It is **your** responsibility to call or contact us. If we have not heard from you, we will attempt to contact you as a courtesy with a "fair warning" notification to you that the property will be sold or otherwise disposed of. This assumes that you have given us good contact information, and we are not liable if you do not receive such notification.

The Management
Phoenix Engine Rebuilders

REMEMBER:
ANY ENGINES OR ENGINE PARTS
OF ANY TYPE WILL HAVE A
STORAGE FEE OF $5.00 TO $10.00 DAILY
WHEN PROGRESS PAYMENTS ARE NOT
MADE ON TIME.
